FLIP THE CUBE!

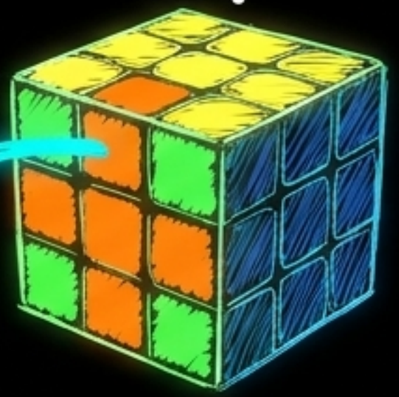

Step 3: The Middle Layer (Build the Walls!)

Solve the 4 middle edges. (Yellow is on top now!)

To drop RIGHT:

U R U' R' U' F' U F

To drop LEFT:

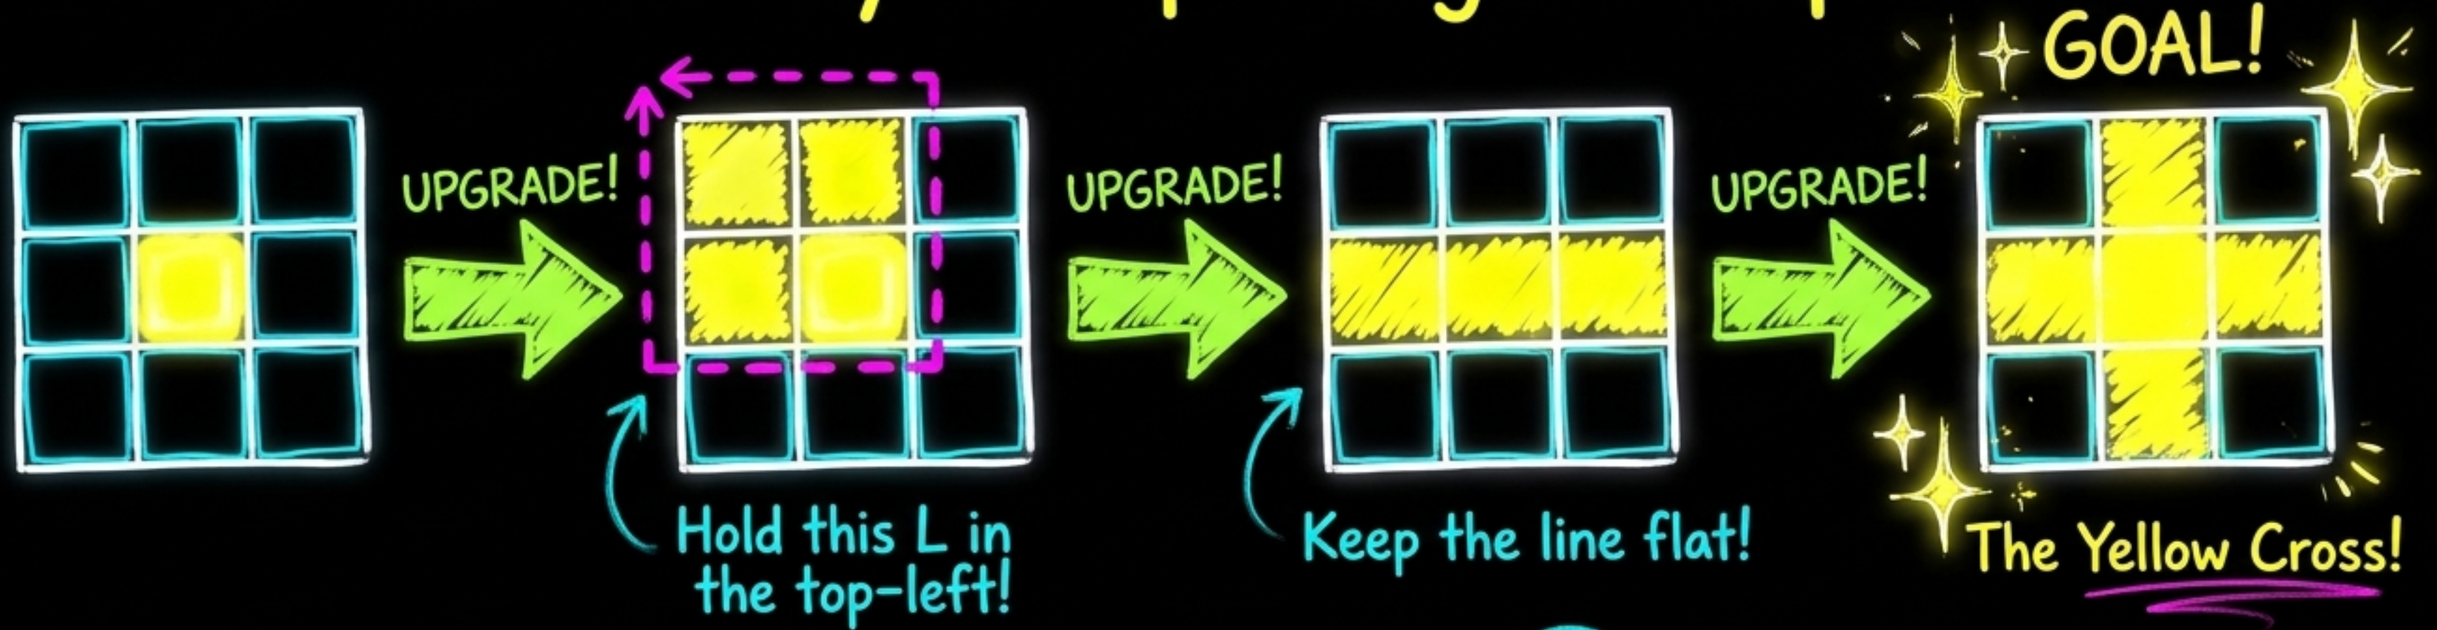

U' L' U L U F U' F'

Match a non-yellow edge to make a T, then pick your path!

Step 4: The Yellow Cross (Start the Roof!)

Make a yellow plus sign on top.

Secret code: F R U R' U' F'

Hold the "L" in the top-left, or keep the line flat.
Repeat the code to upgrade your shape!

Step 6: Move the Corners (The "Niklas" Code!)

Move corners to their correct home spots (It's OK if the colors are twisted!)

OKAY!

U R U' L' U R' U' L

Find ONE corner in the right spot. Hold it in the FRONT-RIGHT.
Repeat Niklas until they all match their centers!

Step 7: Twist to Win! (The Final Magic)

⚠ ONLY TURN THE TOP LAYER (U)!

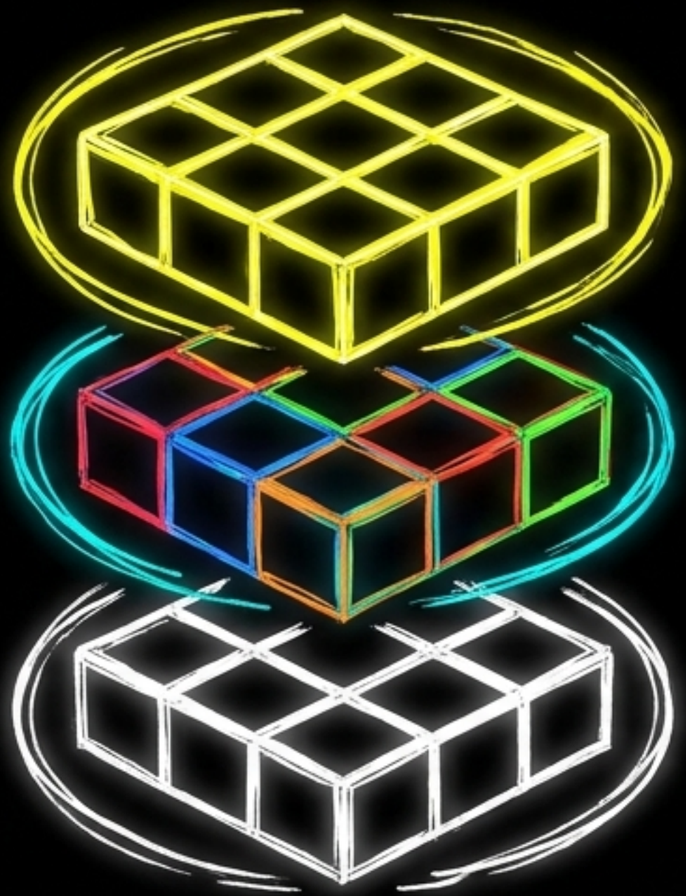

R' D' R D

1. Put a broken corner in the FRONT-RIGHT.
2. Repeat code until Yellow faces UP.
3. Spin only the TOP (U) to bring the next corner over, and repeat!
